## SKILLS

- JIRA
- Testing and debugging
- Team Collaboration
- Solution Recommendations
- Code reviews
- Feature and Application Implementation
- Code Development
- Troubleshooting and resolution
- Performance Testing
- Agile Methodologies
- Unix
- Object-Oriented Programming

## WORK HISTORY

October 2021 - Current

**Tata Consultancy Services - Software Engineer**, Kochi, India

- Improved software performance by identifying and resolving bottlenecks in the code.
- Enhanced user experience with intuitive interface design and responsive web applications.
- Collaborated with cross-functional teams to deliver high-quality software products on schedule.
- Optimized algorithms for faster processing, reducing overall computation time.
- Developed scalable and maintainable code, ensuring long-term stability of the software.
- Provided technical guidance to junior developers, fostering a positive team environment and promoting professional growth.
- Consistently met project deadlines by effectively managing time and prioritizing tasks according to importance.
- Conducted thorough code reviews to identify potential areas for improvement, ultimately enhancing code quality across all projects handled by the team.
- Proactively identified security vulnerabilities in application code, implementing necessary measures to mitigate risks.
